

MKAA News

New Members

Shortly after the EGM in March, Tim kindly posted about the allotments on Facebook and received several positive responses. Chris has taken time to meet those interested in joining us, and we would now like to officially welcome the following new members to the association: Julie, Michael, Laura, Hazel, Kate, Helen, David and Julian

A big THANK YOU to:

- Jennifer for her hard work redesigning our website
- Steve and Chris for the time and effort they put into overhauling the tool shed
- Fiona for repainting the sign on the entry gate – it is now much more welcoming!
- Allan & Beryl for growing so many beautiful plants for the farmers' market

What's Happening?

We would like to publish some “**top tips**” documents on the website – if you would like to share your gardening expertise with other members then please email us - no topic is too small!

The **community shed** has undergone a massive clear-out – please feel free to use it for a cuppa, chat or a relaxing dry space between gardening jobs

We are introducing a **plant and seed swap** to encourage members to share any spare or unwanted plants and seeds:

- spare seeds can be left in the labelled basket in the community shed
- spare plants can be left of the wheeled shelves just outside the community shed

Please feel free to take what you can use, even if you just want to try a few seeds of something new!

Please see the meeting minutes on the website for more detailed information
